PURPOSE

We aim to protect the privacy and confidentiality of children, families, Educators, staff, students, volunteers and visitors by ensuring continuous improvement of systems in place for usage, storage and disposal of records. We will ensure that all records and information is preserved in a secure place and is only retrieved by or released to people who need the information to fulfil their responsibilities at the Service or have a legal obligation to distinguish.

SCOPE

This policy applies to children, families, Educators, staff, students, volunteers and visitors of the Service.

IMPLEMENTATION

Early Childhood Services are required to comply with Australian privacy law which includes the Privacy Act 1988 (the Act) which was amended in February 2017, with the changes taking effect on February 22nd 2018.

The new law introduces a Notifiable Data Breaches (NDB) scheme that requires Early Childhood Services, Family Day Care Services and Out of School Hours Care Services to provide notice to the Office of the Australian Information Commissioner (formerly known as the Privacy Commissioner) and affected individuals of any data breaches that are “likely” to result in “serious harm.”

Businesses that suspect an eligible data breach may have occurred, must undertake a reasonable and expeditious assessment to determine if the data breach is likely to result in serious harm to any individual affected. A failure to notify that is found to constitute a serious interference with privacy under the Privacy Act may result in a fine of up to \$360,000 for individuals or \$1.8 million for organisations. In order to comply with the Privacy Act, services are required to follow the Australian Privacy Principles (APPs), which are contained in Schedule 1 of the Privacy Act 1988 (Privacy Act).

In particular, the principles cover how personal information can be used and disclosed (including overseas), keeping personal information secure, and the open and transparent management of personal information including having a privacy policy.

The principles cover:

- the open and transparent management of personal information including having a privacy policy
- an individual having the option of transacting anonymously or using a pseudonym where practicable
- the collection of solicited personal information and receipt of unsolicited personal information including giving notice about collection
- how personal information can be used and disclosed (including overseas)
- maintaining the quality of personal information
- keeping personal information secure
- right for individuals to access and correct their personal information

The APPs place more stringent obligations on APP entities when they handle ‘sensitive information’.

Sensitive information is a type of personal information and includes information about an individual's:

- health (including predictive genetic information)
- racial or ethnic origin
- political opinions
- membership of a political association, professional or trade association or trade union
- religious beliefs or affiliations
- philosophical beliefs
- sexual orientation or practices
- criminal record
- biometric information that is to be used for certain purposes
- Biometric templates.

Australian Privacy Principles (APPs)

APP 1 – Open and transparent management of personal information

Ensures that APP entities manage personal information in an open and transparent way. This includes having a clearly expressed and up to date APP privacy policy.

APP 2 – Anonymity and Pseudonymity

Requires APP entities to give individuals the option of not identifying themselves, or of using a pseudonym. Limited exceptions apply.

APP 3 – Collection of solicited personal information

Outlines when an APP entity can collect personal information that is solicited. It applies higher standards to the collection of 'sensitive' information.

APP 4 – Dealing with unsolicited personal information

Outlines how APP entities must deal with unsolicited personal information.

APP 5 – Notification of the collection of personal information

Outlines when and in what circumstances an APP entity that collects personal information must notify an individual of certain matters.

APP 6 – Use or disclosure of personal information

Outlines the circumstances in which an APP entity may use or disclose personal information that it holds.

APP 7 – Direct marketing

An organisation may only use or disclose personal information for direct marketing purposes if certain conditions are met.

APP 8 – Cross-order disclosure of personal information

Outlines the steps an APP entity must take to protect personal information before it is disclosed overseas.

APP 9 – Adoption, use or disclosure of government related identifiers

Outlines the limited circumstances when an organisation may adopt a government related identifier of an individual as its own identifier, or use or disclose a government related identifier of an individual.

APP 10 – Quality of personal information

An APP entity must take reasonable steps to ensure the personal information it collects is accurate, up to date and complete. An entity must also take reasonable steps to ensure the personal information it uses or discloses is accurate, up to date, complete and relevant, having regard to the purpose of the use or disclosure.

APP 11 – Security of personal information

An APP entity must take reasonable steps to protect personal information it holds from misuse, interference and loss, and from unauthorised access, modification or disclosure. An entity has obligations to destroy or de-identify personal information in certain circumstances.

APP 12 – Access to personal information

Outlines an APP entity's obligations when an individual requests to be given access to personal information held about them by the entity. This includes a requirement to provide access unless a specific exception applies.

APP 13 – Correction of personal information

Outlines an APP entity's obligations in relation to correcting the personal information it holds about individuals.
